

THE DANUBE RIVIERA

Veliko Gradiste-Golubac-Donji
Milanovac-Kladovo-Negotin- five days

DAY 1:

Veliko Gradište

Nimnik Monastery

The monastery is dated from the time before the Battle of Kosovo (1389). It was built in the oak forest near the village of Kurjača, 15 km from Veliko Gradište. The monastery has markings of many different periods, even stone ornaments from the ancient Roman military camp Viminacium.

Visit old city centre, which is in the present main street and which has many beautiful houses built at the end of 19th century, decorated with facade ornaments. The old city centre was proclaimed a spatial-cultural-historic complex and placed under the state protection.

Visit to the Customs building, located on the bank of the Danube, not far from the old city centre. The building is decorated with a lively facade, accented by pilasters and capitals. The building is also placed under state protection.

Srebrno jezero (Silver lake) a developed tourist-sports complex offering a wide range of possibilities for recreation and entertainment on shore and in the water.

DAY 2:

Golubac

Tumane Monastery

Male monastery in northern Kučaj near Golubca, one of the most visited monasteries in Serbia. It was built by Miloš Obilić, in the first half of the 14th century, and represents a faithful copy of the Church Moravian school. In 1993, it was completely frescoed, and it was renovated in 2014.

Golubac city

Golubac is from the Middle Ages, of exceptional beauty above the Danube towards the rocks. After the renovation, the Tourist Complex opened in 2019 and it consists of a Visitor Center and a Fortress with a Palace and 9 towers, interconnected by ramparts. Ethno museum in the village of Dobra. The museum stands out with a rich gallery of paintings, photographs and old things, as well as old tools.

Donji Milanovac

Captain Miša's Konak (residence) and the Tenka House. Reconstructed 19th century houses with authentic exteriors and interiors. Tourist Organization of the Municipality of Majdanpek has its offices in the Tenka House.

THE DANUBE RIVIERA

Church of St Nicolas

The church was mentioned for the first time in the annals of 1730 and it is characteristic for being in possession of a Jerusalem cross as of recently, parts of which were made of dust from the cave in which Jesus Christ was born, as well as from dust from his grave.

DAY 3:

Lepenski Vir

Visit archaeological site Lepenski vir. This is a prehistoric archaeological site of exceptional importance, where activity of a human society from 8,500 years ago is presented. Museum and Ethno-houses with authentic appliances are also located inside the archaeological site.

Kladovo

Diana Fortress – defensive fortress of Roman Emperor Trajan, built in the time of his march into Dacia. **Fetislam Fortress** – which in the times of Turkish occupation was an artillery base. A defensive system – fortress was built later.

DAY 4:

The Djerdap gorge and National park Djerdap

The road to Kladovo runs by the Danube, through the beautiful Đerdap gorge, through which flows the Danube, one of the biggest European rivers. Ideal for photographing. The gorge is situated in the centre of the National park Djerdap. The Visitor Centre within the park is a part of the itinerary. Just before entering into Kladovo, a portrait of ancient Dacian king Decebalus carved in stone can be seen on the bank of the Danube on the side of neighbouring Romania. Visit hydro-electric power plant Djerdap – a spectacular river dam built in the recent times, with hydro-aggregates with the total combined power of 1,068 megawatts.

Boat tour – the Danube trail, within which one will be able to see Trajan's memorial plaque (Tabula Traiana) from up-close, Trajan's bridge, ait Kale with tasting food and drinks from Eastern Serbia.

Manastir Vratna

It is believed that this monastery was founded by Archbishop Nicodemus. Huge rock formation – a gate is to be seen in the vicinity of the Monastery, a work of nature, called the Vratna Gates.

Rajačke pivnice

Wine cellars in the village of Rajac are located on a hill, near the Timok river. They represent a unique architectonic complex of wine cellars built in the period between 18th century to 1930's. The complex is made of 270 wine cellars built around a central square with a fountain. They were built of dimension stone and logs and covered with tiles. Cellars are partially dug in the ground so that the temperature would not vary much throughout the year and with living rooms upstairs, which were used during the vine picking and cultivating wine. During the visit wine tasting is organized in wine cellars.

THE DANUBE RIVIERA

Rogljevo wine cellars

The village of Rogljevo is also famed for its wine cellars. The Rogljevo wine cellars have a slightly different architecture and are characterized by an exceptional quality of red and white wine.
